

Commitments for joining the DCF Supply Acceleration Area

Commitment Details

Scope 	Identify a lead company representative working on supply chain sustainability within their company to engage with CGF on knowledge sharing and progress reporting
	Select at least 1 type of commodity to focus on, among soy, palm oil, beef, and paper, pulp, and fibre-based packaging (PPP)
	Track percentage of DCF supply within selected commodity type(s)
	Set a DCF commitment with ambitious cut-off, target dates, regular milestones, and action plan (in line with FPC methodology)
	Encouraged to achieve 100% DCF for the selected commodity type(s) by 2025 ¹
Timeline	2026 EOY
Reporting 	Share progress annually with CGF for aggregated reporting, using DCF Methodology by the CGF Forest Positive Coalition
	KPIs of DCF Supply Acceleration Area: • % of verified DCF supply for selected commodity type(s)
Participation 	Participate in CGF DCF Supply learning sessions (attendance encouraged but not required)
	Display logo on CGF website

1. The aspiration includes complex supply chains (of embedded soy, complex palm derivatives, indirect cattle suppliers, and smallholder volumes), which the Coalition recognize may not meet the 2025 ambition due to the additional complexity, however, for any such volumes not DCF by 2025, the Coalition expects that members will have ambitious strategies with demonstrable annual progress.

The DCF Acceleration Area proposition to potential members

Ambition

Mainstream Deforestation and Conversion-Free (DCF) supply approach for a forest positive future. Join a DCF supply for soy, palm oil, beef and/or paper, pulp, fibre-based packaging (PPP).

The DCF Acceleration Area will run until **2026 EOY**

Commitments required

Set and track commodity against DCF supply ambition, encouraged to be 100% DCF by 2025

Select at least 1 commodity (soy, palm oil, beef, paper, pulp, fibre-based packaging aka PPP)

Identify a representative working on DCF within company to engage with CGF

Support from CGF

- **Training** on DCF and landscape approaches and provision of tools
- Facilitated **collective engagement** with supply chain actors
- **Simplified reporting methodologies** and KPIs

CGF and members' credibility and experience

- **Scale:** 21 companies in Coalition with collective market value of \$1.8tr, including PepsiCo, Walmart, Colgate-Palmolive & Carrefour
- **Transparency:** 68% success in disclosing KPIs (up 20% vs last year)
- **Collaboration:** 78% of initiatives are co-invested by 2+ Coalition members
- **Recommended:** Called out by UK Government as a leading collaborative initiative

Case study

Mars, Mondelez, PepsiCo & Unilever formed the Coalition for Sustainable Livelihoods in 2018 to work across civil society in Indonesia. Projects to support smallholders have included clarifying land rights, financing, training programs & raising awareness of existing regulations.
